ANNEX

PROVISIONAL ASSESSMENT OF CIVILIAN CASUALTIES AND DESTRUCTION IN THE TERRITORY OF THE FEDERAL REPUBLIC OF YUGOSLAVIA FROM 24 MARCH TO 08 JUNE 1999

The NATO criminal aggression represents the most flagrant violation of the Charter of the United Nations since the inception of the world Organization, a violation of the Helsinki Final Act and the undermining of the very foundations of the international legal order. At the same time, this aggression is a crime against peace, stability and humanity.

The Federal Republic of Yugoslavia has warned on time the United Nations Security Council of a possible aggression, and during the aggression itself it requested that it be immediately halted and most strongly condemned. Had this legitimate request of the Federal Republic of Yugoslavia been met, enormous human sufferings and destructions would have been avoided.

During the past seventy-seven days of the NATO aggression, the Federal Republic of Yugoslavia has been exposed to extensive civilian destruction, unprecedented in modern history of the world. The NATO systematically attacked and destroyed civilian targets in the entire territory of the FR of Yugoslavia, directly threatening the lives and fundamental human rights of the entire Yugoslav population.

From the onset of the NATO aggression against FR Yugoslavia from March 24 until June 8, 1999, the North Atlantic Alliance carried out **more than 35 000 assaults** against the Federal Republic of Yugoslavia. In air strikes were used: **over 1 000 warplanes** (among others F-15, F-16, F-117) and 206 **helicopters. More than 10 000 cruise missiles** were launched and **over 79 000 tons of explosives** were dropped, including at least **152 containers with 35 450 cluster bombs, thermo-visual and graphite bombs** which are prohibited under international conventions. The greatest number of air-strikes were carried out in the wider area of Pristina (374), Prizren (232), Beograd (212), Urosevac (205), Djakovica (190), Kraljevo and Uzice (145 per town), Novi Sad (114), and so on.

Three million children have been directly endangered by indiscriminate bombardment by the NATO aggressors. Since the onset of the aggression **many children have been killed and wounded.** Also, almost 250 000 children-refugees from former Yugoslav republics Croatia and Bosnia-Herzegovina, who have found safe heaven in the FR Yugoslavia, have once again been exposed to the horrors of war. Since the commencement of the aggression children have not been able to attend school classes, and it has been estimated that in the fall almost 100 000 pupils will not be able to enrol as many pre-school institutions and elementary schools have been demolished by NATO bombs.

After NATO barbaric assaults on facilities of the chemical and petro-chemical industries **millions of**

citizens have been exposed to poisonous gasses. Water, soil and forests have also been badly contaminated, thus disrupting the environmental balance. All this will have lasting consequences on the health of the entire population and the environment not only in Yugoslavia, but also in the region as a whole.

Furthermore, repeated bombardment of tourist centers and national parks has endangered natural reservations and sanctuaries. Many species have become extinct due to the NATO bombings, and wildlife has started migrating and abandoning its natural habitat. The NATO aggressor has even attacked and endangered the Djavolja Varos site of metamorphic and sedimentary stone towers unique in Europe.

The International Union for the Conservation of Nature and European environment protection institutions and non-governmental organizations have been informed of the threat.

After the demolition of the Petrovaradin bridge (as regional and city power and water pipelines were constructed into the bridge), especially after wide-spread destruction of the electric power system in the territory of the FR of Yugoslavia (hydroelectric and thermo-electric power stations, transformers, electrical transmitters, power grid systems, power lines, etc) - with graphite, cluster and highly destructive thermo-visual bombs, regular supply of power as well as water (as water processing plants had no power) was disrupted. Destruction of the power system caused mass suffering of the entire population (around 11 million) of the FR of Yugoslavia, as all users in the country, including hospitals and other health institutions, maternity wards, institutions for the care of children and elderly, were severely affected. This only shows total and brutal disregard on the part of the aggressors, for the needs of the most vulnerable segments of the population: new born babies, geriatric populace and the terminally ill who require unhindered daily medical care and treatment.

Continuous, highly intensive, bombardment of villages and towns in the southern Serbian province of Kosovo and Metohija resulted in mass destruction, wide spread fear and panic among the populace. Thousands of civilians, women, children, elderly and weak individuals from Kosovo and Metohija, in fear of aggressor bombs, were forced to flee the province, thus the NATO alliance caused an enormous humanitarian catastrophe.

Continuous indiscriminate bombing of civilian targets in the FR of Yugoslavia exposed the real nature of the aggressors who, by not showing any restraint what so ever, bombed even refugees and humanitarian convoys. By bombing humanitarian convoys, eg. Greek convoy in the immediate vicinity of the town of Urosevac (May 5, 1999) and a Romanian convoy near the village of Mijatovac (May 8, 1999), NATO aggressors committed yet another crime on a very long list of crimes against humanity which they had already committed in the territory of the FR Yugoslavia. The movement of trucks, which were visibly marked, transporting Greek humanitarian aid was announced in advance, thus this act cannot be qualified in any way as a "mistake" but only as a new planned crime against the civilian population in the Federal Republic of Yugoslavia.

Due to total destruction of industrial facilities throughout the country, more than **600 000 workers** have become jobless. As a result almost **2.5 million citizens** have no means to sustain minimal living conditions and are unable to ensure their existence.

Overall material damage is enormous. Preliminary estimates indicate that barbaric air strikes of the NATO alliance, since the beginning of the unprovoked aggression, against industrial, commercial and civil facilities and infrastructure throughout the territory of the FR of Yugoslavia, have incurred damages in excess of **100 billion dollars**.

Herewith are listed only some of the most illustrative and distinctive examples.

CIVILIAN CASUALTIES

Several thousand civilians were killed and more than **6 000** sustained serious injuries, while a large number of them will remain crippled for life.

Children make up 30% of all casualties as well as 40% of the total number of the injured, while 10% of all Yugoslav children (approximately 300 000) have suffered severe psychological traumas and will require continuous medical surveillance, care and treatment. For the most part, children have been victims of the sprinkle cluster bombs, with delayed effect, and will continue to be until all parks, play-fields and open areas have been made safe from the remaining, unexploded, cluster bombs indiscriminately scattered throughout the country.

What follows are the most tragic instances of civilian casualties and suffering as a result of the unprovoked aggression of the NATO alliance on the FR of Yugoslavia:

Surdulica:

attack on a peaceful rural town **20 civilians were killed, including 12 children, and over 100 wounded of which 24 critically** (27.4.1999);

ECONOMIC AND CIVILIAN TARGETS, PUBLIC INSTITUTIONS

The air strikes have so far destroyed or damaged throughout the territory of the Federal Republic of Yugoslavia **several thousand industrial and commercial facilities and housing units**. In the Leskovac region alone, **over 3,500** industrial facilities and housing units were either destroyed or damaged, while in the northern Serbian province of Vojvodina more than 3,650 housing units as well as at least 82 commercial enterprises have been damaged or destroyed.

The devastation of NATO forces was particularly manifested in Pristina, Novi Sad, Aleksinac, Djakovica, Prokuplje, Gracanica, Cuprija, etc. Housing blocks on the outskirts of Belgrade - Kijevo Knezevac, Batajnica, Jakovo, Borca, as well as the area around Pancevo, were under attack.

1. INDUSTRY AND TRADE:

The NATO aggressor's assaults targeted factories and industrial facilities which directly cater for the needs of the population, among which the following are more prominent:

Belgrade:

1 **"Galenika"** drug factory (12.4.1999.);

2. **"Frikom"** company (15.5.1999);

3. Industrial complex **"Dvadeset Prvi Maj"** in Rakovica (24.3.-3.5.1999);

4. Factory **"Jugostroj"** in Rakovica (24.4.-3.5.1999);

5. **"Beogradska pekarska industrija"** (bakery) corporation (24.3.-3.5.1999);
